Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
 - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
 - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
 - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 07/29/2003 has been entered.
2. Claims 8-12 and 15 are pending.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. K. Tackett, esq., on 09/16/2003.

The application has been amended as follows:

In claim 8 after the words "A method for cleaning a process chamber" insert ---
located in a processing system---

11

Art Unit: 1746

In claim 8 replace the word "with" after the words "gas generated on-site" by the words ---in communication with the processing system---

In claim 8 delete the word "said" after the words "gas mixture consisting essentially of"

In claim 8 replace the word "gas" after the words "a liquid hydrofluoric" by the word ---acid---

In claim 9 replace the word "a" after the words "cleaning gas is pumped into" by the words ---an on-site---

Allowable Claims

4. Claims 8-12 and 15 are allowable over the prior art of record.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance: The closest prior art of record are Shang et al. (U.S. 5,788,778), Nicolas (U.S. 5,284,605) and Karwacki et al (U.S. 5,569,151).

While teaching a method of cleaning a deposition chamber with fluorine species comprising delivery of fluorine gas into remote plasma chamber, that is outside of the deposition chamber, activating fluorine gas utilizing microwave energy and flowing the activated fluorine gas species from the remote chamber into the deposition chamber to clean the inside of the deposition chamber, Shang fails to provide the steps of generating fluorine gas from hydrofluoric acid on-site, while the generator of fluorine is

Art Unit: 1746

connected to the processing system, or in communication with the processing system, as instantly claimed, through on-site positioned storage unit, and wherein the process of converting the hydrofluoric acid to fluorine proceeds through the formation of gaseous mixture, consisting essentially of hydrofluoric acid gas and fluorine gas.

Even the HF is routinely utilized for the production of fluorine, which can be stored and transported in special containers, as provided, for example by Nicolas and Karwacki, the steps of generating fluorine gas from hydrofluoric acid on-site in communication with the processing system through on-site positioned storage unit, are not anticipated or suggested fairly by prior art references.

No other prior art that anticipates or suggests fairly the instant claims has been located as of the date of this office action. Therefore, claims 8-12 and 15 are allowed over the prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Kornakov whose telephone number is (703) 305-0400. The examiner can normally be reached on 9:00am - 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (703) 308-4333. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
